This school year marks the final year of each student's high school Grad Plan so it is very important that students achieve all necessary credits in order to successfully graduate in June of 2027.

Graduation Requirements

In order to be eligible to participate in the June Commencement Ceremony, a student must have completed graduation requirements by the end of their grade 12 year. At the midterm point of second semester, there will be an adjudication of any student in grade 12 with failing grades. Failing grades will be formally warned if their graduation is in jeopardy. Students will have until the middle of May to improve.

I urge you to go to the following website: www.bced.gov.bc.ca/graduation/ to see what courses and credits make up the secondary school grad plan in British Columbia. We have a copy of each student's Grad Plan on file and students and parents are welcome to contact our school counselor- Suanne Wallin (swallin@sd73.bc.ca) to set up an appointment to discuss and view their plan. This is your grad year, make it count!

Provincial Assessments

Students **MUST** complete Grade 10 and Grade 12 Provincial assessments to graduate. Numeracy and Literacy Assessments. Communication about assessments will be shared at school with students and through emails to parents to review with students.

Entrance Bursaries and Scholarships

Almost all institutions and companies offer money to qualified students seeking admission to their institution. Some scholarships are based on academic performance and others focus more on community achievements and contributions. Bursaries are based on similar criteria, however they are specifically for those students who have financial need. The college and university calendars provide information about such awards but the websites will have the most up to date

information about such funding. TRU has several entrance scholarships and the application is by March 1 of each year.

School District 73 has many scholarships available for grade 12 students. The deadlines for our local awards typically come up in March. Students are learning how to write scholarship applications in their career education classes this term. Here is the link to our school district website where you can access more information regarding the various awards.
